Premise

Furniture is part of a system that completes our comfort. Layers of furniture bring out who we are and how we live. They are an inseparable part of us. Intended to support various human activities, they eventually are prominent controllers of the human psyche. And by selecting the right furniture, a person can leave the outside world at the door and find their own nest of comfort. The role of designer hence becomes essential in framing these niches and corners of how our lives are scripted and unscripted in innovative ways. Ways; a normal person can only know after experiencing these.

With **Boun Furniture Design Awards**, we honor projects that ascend creativity & practicality and bring out new dimensions of design through furniture as a medium.

Intent

Boun Furniture design Awards (BFDA) has been created to recognize, honor and celebrate the pinnacle of crafting excellence and design proficiency in the furniture design industry.

We are inviting designers and craftsmen across the globe to submit their entries which will be judged for design innovation, versatility, visual ingenuity, ergonomics, aesthetics.

With some exemplary furniture projects received in our previous edition, we can't wait to see what lies in store for this year's **BFDA 2020**.

Eligibility

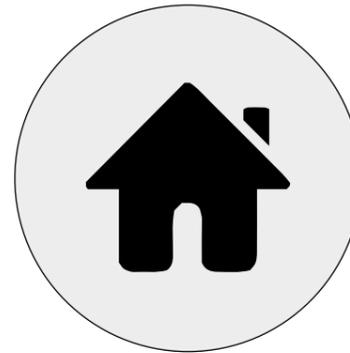

1. Participants from all geographical regions are eligible. Open to participants of all backgrounds, including design students and professionals.
2. Realized projects only are eligible for this contest. No conceptual furniture ideas are allowed.
2. Participation is on individual basis only. Organizations/studios may participate however, certificate / awards will be issued to a single contact person / Team members registering for the award. One individual can submit multiple projects (separate entry for each) in multiple categories.
3. Entries must be original works of the entrant/studio/organization, who will be recognized as the sole designer of the said entries throughout the course of the competition.
4. You can enter in more than one categories for the awards, however the entry has to be submitted separately. Only designs conceptualized/created/realized after December 2013 are eligible. BOUN Serves as a unit block for UNI in the field of furniture design. It serves as a platform for experimentation and conceptual exchange of ideas for furniture designs happening at various levels. The program intends to get designers from around the world and encourage them to share their extraordinary design ideas.

Through our furniture design competition at BOUN, we intend to create a dialogue among designers where they have full freedom to create contextual and user-centric design. Our furniture design awards will identify and acknowledge young and budding designers from across the globe. This approach towards design would serve in refurbishing the profession's identity and will help the product to reach masses through our leading media and industry partners.
