Pastel 100

Welcome to the 19th Annual Pastel100 submission system.

Before you submit your entries, please follow the directions below. (Please note, Artist's Network and WetCanvas Forum log-in info does not apply to the competition sign-up/log-in.)

I HAVEN'T YET CREATED A LOG IN FOR THIS YEAR'S COMPETITION:

Sign up for an account and create a login for yourself (on the right side of this page). After creating a log in, you will be taken directly to the entry page. Your account gives you the opportunity to save an entry draft and come back to it at anytime to complete your submission before the deadline. BY creating an account, you can also stay informed throughout a competition. We will email you status updates and other important information about the competition.

I HAVE ALREADY CREATED A LOG IN THE SUBMISSION SYSTEM FOR THIS YEAR'S COMPETITION

Every time you come back to this page you can simply **login** to your existing account (on the right side of this page). You will be taken to the main menu that allows you to view your drafts, your completed entries or submit additional entries.

Please enter a valid email address and password. There are no length or character requirements for your password. Each competition requires that an account be created. If you wish, you may use the same email address and password for ANY/ALL competition account(s) that you create.
