Theme | Wonder

Wonder can be a moment, it's a feeling, a curiosity, an experiment or a discovery. It can also be the wonder of the natural world, fascinating cities, capricious animals and intriguing people around us. It is often what inspires us to take a photograph and save the moment. This is an online and projection exhibition. The Center will also produce an exhibition catalog featuring the selected artists. Emerging to established artists are encouraged to submit. All types of photographic processes and subjects are eligible for selection.
